

Quality Policy

Tazewell Machine Works, Inc. is committed to meeting customer requirements and satisfaction by maintaining a Quality Management System that provides a quality product, which is shipped on an agreed upon date. TMW will continually improve its Quality Management System through EXCOM driven activity.

TMW supports this commitment to our Quality Management System by;

- 1) Incorporating customer needs into appropriate TMW procedures (SOP's) and operator instructions (SUR's).
- 2) Training Employees on any operation they are performing and requiring them to follow authorized written procedures to ensure they knowingly do not pass defective material to the next operation.
- 3) We will audit our Quality System Processes, correct any findings and implement potential improvements.
- 4) TMW Employees are responsible for maintaining a clean-safe work environment.

Mack V. Cakora
President
